Network Engineer

Want to be a part of an award-winning team, recognized for their innovative achievements in local government? This is a great opportunity to join a hard-working group who enjoys variety, but also knows how to have a good time and work well collaboratively.

NETWORK ENGINEER

THE POSITION

What does a typical day or week in this role look like?

Today, you might be collaborating with coworkers from various departments on a new project that will need network support and add to network infrastructure.

Tomorrow, you may be servicing requests to add new VPN users, modify firewall rules to allow certain traffic into the City, and support other IT requests for access.

Later in the week, you may be researching new products or means to add services, security, or other enhancements to the network and backing up configurations.

At any given time, you may be troubleshooting connectivity issues and/or reviewing logs/alerts and maintaining an alertness for possible intrusions and breaches and staying informed of and abreast of new developments in the IT world.

Performs network administration

by continuously monitoring the network for packet errors, performance issues, network throughput, schedule upgrades and managing operating system upgrades; researching new systems, software or hardware that can be utilized to increase efficiency and performance.

Performs network planning by continuously reviewing the current environment and determining areas for expansion.

Secures network systems by establishing and enforcing policies; researching new security parameters and determining efficient ways in which the city can implement new systems.

Assists with projects by working with staff on work assignments related to projects.

Provides help desk support by troubleshooting network problems and outages; providing Level 1, 2 and 3 support for problems, hardware and software;

Fulfills fiscal responsibilities by researching and providing quotes to supervisor for hardware purchase.

Salary Range for this position is \$56,993 - \$89,478 and is based on experience.
